**MEETING OF THE GOVERNORS**

Mr. Maxwell Made an Interesting Address - Work to Be Pushed With Vigor.

A regular meeting of the board of governors of the Salt River Valley Water Users' association was held at the offices of the association yesterday afternoon. A considerable amount of routine business was transacted and an address was made by Mr. George H. Maxwell, who explained to the governors what he had learned while at Washington.

Mr. Maxwell said that he was more convinced than ever that exactly the right course had been pursued in the formation of the association. He had felt certain all the time that no mistake had been made in the wording of the articles of the incorporation, but if he had entertained any doubts they could not exist in his mind after his conference with the officials at Washington. There was no doubt whatever, he said, that it was now simply a question for the people of the valley to determine. To get the reservoir they must accept the articles of incorporation and sign up for stock in the association. Mr. Maxwell expressed surprise, as did everybody who talked, that there should be any hesitance whatsoever in making a spontaneous move for success. On the whole, however, general confidence was expressed that the work of getting the necessary acreage signed up would soon be completed, and plans were made for pushing the business with vigor. It was said that about 40,000 acres in all had been signed for, but this represented hardly half of the acreage which is practically obligated.

Visit Tombstone and register at Hotel Nobles.

**THE MAN OF BUSINESS.**

According to Prof. Oscar L. Triggs of the University of Chicago, the coming business man is to be one-fifth. The coming business man comes the better; but it is to be feared that he cannot be expected for a long while, for it is the "up and coming" business man who still holds away, and he is not troubled greatly about ultra-scientific speculations. We may readily believe Prof. Triggs when he says that "the business men of the future would not be recognized by the business men of today." Boston Transcript.

**DO A LITTLE THINKING**

If you are in poor health, and desire to get well, you cannot afford to experiment with yourself, or depend on inexperienced doctors. You have no business to waste your time or money thus. Your health is too precious to be trifled with. Dr. Hubbard is a thoroughly educated Specialist and he is the only known physician in the Southwest. You can consult him without charge and if you are convinced of his ability to treat your case, you are under no obligation to place yourself under his care. He fully recognizes that you are entitled to your full strength and cheer. The delicate organs of the digestive system with all their diseases are carefully and scientifically treated. My specialty includes chronic diseases, blood poison, indigestion and various diseases. Do not forget that chronic diseases are always under treatment. Either you must get the better of them or they will get the best of you. Those kinds of people are handicapped by such chronic diseases which often ruin them for the duties of life. A man may not be a doctor, yet he can be helped down by some chronic disease. Destroy all poisons of living. Years ago I discovered old methods of treating the above diseases and by extended research discovered new and successful methods which have given me a far-reaching reputation. No numerous medicines are used. In addition to the specialty of chronic diseases Dr. Hubbard successfully treats numerous and external growths without the knife. His method is safe, sure and successful. Call on address, Hubbard Building, 2025 S. Second Avenue, Phoenix, Arizona. Hours, 12-2 P. M.

**CEL KO-KO**

at the FOUNTAIN.

**PIANOS, MUSIC**

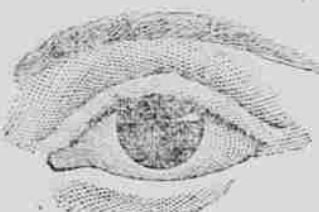

Don't buy cheap boxes or agony tanks with pretty cases and mandolin attachments, such as irresponsible nomadic peddlers palm off as high grade instruments, but if you insist on that kind of goods we can supply you for \$175.00 to \$200.00, etc.

We would much rather sell you an instrument that can be guaranteed, such as the BALDWIN CO.'S Pianos awarded grand prize and cross of the Legion of Honor, Paris Exposition 1900. The HAMILTON, made by the BALDWIN CO., Baltimore and silver model, Paris 1900. The CHECKERING & SONG BEHR BROS., FISCHER, MASON & HAMLIN, KIMBALL PIANOS. Terms Easy.
